Education

Dr. A.P.J. Abdul Kalam Technical University - B. Tech (Hons) IN ECE

82%

2018 – 2022

Professional Background

- Associate with 2+ years of industry experience in RPA development and Dot Net Skills.
- Strong background in business communication, client interaction and building stakeholder relationships. Highly result oriented and proactive, proven abilities to learn technologies quickly and implement learnings successfully in projects.
- Experience in solving client challenges, developing complex processes and successful deliver in production on time.

Skills

RPA: UiPath, Power Platform (Power Automate, PowerApps, [PowerBi](#))

Industry Experience: Insurance, E-Commerce

Languages/Skills: Python, C++, C#, .NET Core MVC, SQL, DBMS, OOPS, DSA, Full Stack Development

Experience

Cognizant Technology Solutions (RPA Developer)

Sept 2022 – Present

- Worked for 3 renowned clients **Nationwide, Direct Line Group** and **Walmart** (Currently working).
- Executed E2E development as well as assisted in the migration of legacy workflows (**UiPath, Automation Anywhere**) to **Power Automate Desktop**, ensuring minimal disruption and continuity of business operations.
- Highly experienced in Interaction with Browser/Window, Email (SMTP), PDF, txt files, Loops, Conditions, Logs and Ui Selectors.
- Interacted with **API** Calls to connect End Points and used **SAP** connection, Database connection (**SQL**), **CMD** session and **Terminal**.
- Worked on Scripting (Python Script, JavaScript, .NET Script, VB Script and PowerShell Script) to reduce the complexity of process.
- Used **OCR** for old **IFrame** Web browser to make Ui-Interaction smooth along with **Send Keys** and **Dynamic Ui-Elements**.
- Integrated PAD with multiple MS applications including SharePoint, Outlook, Teams, Word, Excel and OneDrive.
- Responsible for directly working with Client and SME. Regularly updated them on progress, challenges, and outcomes.
- Understand Client requirements and perform E2E development, Testing (SIT, UAT, RAMP run) and deliver to run in PROD.
- Provided ongoing support for automated workflows, addressing any issues promptly and ensure seamless performance.

Cognizant Technology Solutions (Full Stack Intern)

Feb 2022 – August 2022

- Used Angular, EF Framework, SQL Server and .NET web API microservice to develop a Service Booking Management Portal.
- Portal was designed for a company where the users can directly report the issues and seek for services just in few steps.
- Collaborated with team members using **version control** such as **GitHub** ([link](#)) to organize modifications and assign tasks.

Projects

Movie Booking Management Portal / Angular, .NET Web API, SQL

July 2022 – August 2022

- Developed a Movie Booking portal where user can register and login in portal, select movie hall, location, no of tickets, check seat availability and get ticket price.
- Used Angular for Ui, SQL as a database and .NET Web API to build microservices.

Form Filling Automation / Power Automate Desktop, Excel, Outlook

Dec 2023

- Download the attachment for a specific subject from Outlook. Read the Excel data and fill the form at a portal.
- Used the Outlook action to download, Browser and Ui Element automation to populate particular field at a portal.

Covid Application / Power Apps, Excel

Jan 2023

- Designed a Covid application where users can see the no. of covid cases Country wise, State wise and City wise.
- Used Excel to fetch data and actions of Power apps for UI. Users can see contact details and no of beds in hospitals.

Extracurricular / Leadership

- Recently rated as the **5-star** employee of the year. Received cheer points from Engagement Delivery lead.
- Received recognitions for timely delivery of Bots as a developer from client and cheer points from manager.
- Certificates:** [Microsoft PL- 900](#), [Microsoft AZ-900](#)
- Team Leader:** Lead team during internship group project and Business Plan Competition in College.
- Open mic winner anchored by Techfest IGNITIA2k19 and cash price as a reward.
- Certificate of Selection in SSB (Technical Entry 2k18) – Conference out of TES-40 Allahabad Board.
- Winner of “Business Plan Competition (BOKSY HOMES)” anchored by PSIT-CHE, KANPUR (Dept-BBA).
- Solved around 100+ DSA questions on [LeetCode](#) and 100+ questions on [GFG](#).
