-----Working as a SAP FICO Consultant for End to End Implementation

- RR Ispat(A unit of GPIL) - SAP S/4 Implementation

Worked as a FICO Lead consultant. I was involved in the implementation as a FICO consultant in implementing General Ledger Accounting, Accounts Receivable, Accounts Payable, Asset Accounting, MM/SD Integration with FI, Cost Center Accounting, Profit Center Accounting. The specific roles and responsibilities involved:

- Understanding the client existing process and their requirement with the SAP.
- Understanding the functional gaps in between the client requirement and the Standard functionality of SAP.
- Designing the whole process and doing the integration and unit testing while sitting with the client.

- Whirlpool Bangladesh- SAP Rollout

I was involved in the Rollout as a lead FICO consultant. The Project starts with taking knowledge from the Team about the Current Processes mapped into the system vis a vis the process required in the Bangladesh business. I played a vital role in finalizing the Chart of Accounts & Organization Structure. The specific roles and responsibilities involved:

- Understanding the client existing process and their requirement with the SAP.
- Understanding the functional gaps in between the client requirement and the Standard functionality of SAP.
- Designing the whole process and doing the integration and unit testing while sitting with the client.
- Cutover Activities and Post- Go live support.

- PS Group – SAP Implementation

Involved in full end to end implementation from AS-IS study to Go live and taking active part in Realization and Cut off activities . Preparing various documents such as FS , User manual and Configuration document . Also involved in giving Training to core user member and End user .

- Designing of the finance and business processes and flow charts in SAP and identifying any functional deficit
- Preparing BPML, KDS & BBP.
- Designing special process for covering the functional deficits
- Configuring the system as per the signed off business processes
- Conducting unit testing and integration testing and UAT, resolving issues arising out of the testing.
- Supporting the client to strategize process of migrating the Legacy data to SAP

- Unique Group- SAP Implementation

Worked on the end to end implementation for one of the largest Industry in Bangladesh. I was assigned as a FICO consultant. My roles and responsibilities included, understanding the client business, preparation of Business Blue Print, configuring the system as per the BBP document, assess and write functional specifications, preparation of cutover strategy.

Other responsibilities include:

- To realize the business scenarios & thorough testing (both unit & integration).
- Preparation of training materials and user manuals
- To generate reports /forms as per client's demand.
- To give training to Client senior management.
- To give the end user training.
- Post Go live support to end users.
