PROFESSIONAL SUMMARY

- Skilled RPA Specialist focused on maximizing success through effective use of UiPath, Automation Anywhere and CSharp abilities.
- Top notch communicator with excellent time management, administrative and customer service skills. Certified UiPath and Automation anywhere developer having around 8 years of experience on RPA tools.
- Worked closely with Process BA to prepare Process Definition Document (PDD) & Solution Design Document (SDD) and work with Bots in production.
- Knowledge of all phases of Software Development Lifecycle (SDLC) and Strong understanding of various SDLC process like Waterfall, Agile Models. Involved in end-to-end RPA development
- Experience using Task Bots in Automation anywhere. Experience in the task recording, editing, scheduling and distribution using automation Anywhere.
- Created end-to-end automation solutions for clients as per requirements which involves requirement gathering, feasibility check, development, testing, deployment, and maintenance.
- Worked on Citrix and Image automation. Business applications on which RPA was implemented include SAP, outlook, word, pdf, web-based applications, desktop, Excel in UiPath.
- Worked on OCR, image automation, Regex etc. Experience in using UiPath Orchestrator for maintaining, securing, and retrieving the user credentials.
- Strong user interface development experience using JavaScript, ASP.net framework Worked on UiPath work queues to manage Bot workloads.
- Worked on various Web applications, Excel applications, Email activities, PDF extraction, OCR extraction in UiPath.
- Knowledge on automation scripts like VBA.
- Knowledge on Orchestrator, REST API Experience in managing teams. Good knowledge on HTML, CSS, Java Script, JQUERY, VB.NET, ASP.NET. Experience in Bug Fixing and Code review to meet coding standards.
- Strong knowledge on writing Functions and stored procedures in SQL database. Experience in working with various clients to automate their day-to-day IT processes.
- Quick learner and excellent team player, ability to meet tight deadlines and work under pressure and strengthened in adaptability, analytical and problem-solving skill.

SKILLS

Technical Skills:

- RPA tools: UiPath, Automation anywhere, C# Automation
- Programming Languages: RPA, SQL, HTML, JavaScript, .NET, c#, VB.net, Python, VB script
- Technologies worked: .Net, Microsoft server management studio, citrix, SAP, MS office, REFramework.

Roles and Responsibilities:

- Hands on experience in Robotic Process Automation (RPA) with different platforms and successful implementation in Production environment
- Strong knowledge on various commands, String Operation, Excel and CSV commands
- Error Handling, Send Email command, Delay and Wait commands, Object Cloning and Manage Web Controls, Loop Command, If command and Schedule tasks
- Good Knowledge on Running scheduled tasks
- Prepare graphical depictions of use cases activity diagrams, system context diagrams
- Sequence Diagrams, use case diagrams, mockup screens etc.
- Experience in defect management tools like JIRA and ServiceNow
- Experience in SQL Server database
- Proficient in all phases of SDLC includes Design, development, Testing and Production
- Using Agile and Waterfall methodologies

Tools and Technologies:

- UiPath Studio (2023.10.4), C# .NET, VB Script, SQL Server, Visual Studio (2019)
- GIT, HTML, XML,

WORK HISTORY

Payoda Technologies - RPA Specialist

Chennai, India • 03/2023 - 04/2024

- Involved in gathering, solution designing, coding, testing, debugging, documentation on UiPath
- Developed new processes/tasks/objects using core workflow principles that are efficient, well structured, maintainable, and easy to understand
- Created automation process for reading data from CSV, Excel files
- Used UiPath Orchestrator for deployment, monitoring, and management of UiPath Robots automation activity
- Experienced in controlling BOT's using RPA administrative/Orchestrator/Document Understanding/Action Center
- Well Versed with UiPath studio, UiPath robot, UiPath Orchestrator
- Provided Exception handling at every possible scenario for robust error-free development
- Worked closely with Process SMEs to translate process in to Process Definition
- Document (PDD) & Solution Design Document (SDD)
- Worked on to develop Test cases and conducting User Acceptance Testing (UAT) with test teams during test Phases and fix errors if occurred
- Interacting with client and involved in business process walkthrough
- Created Functional Requirements Documents (FRDs) for Robotic Process Automation project, based on business process design discussions with stakeholders

Coders Brain Technologies - Consultant

Bengaluru, India • 12/2022 - 02/2023

- Hands on experience in Robotic Process Automation (RPA) with different platforms and successful implementation in Production environment
- Strong knowledge on various commands, String Operation, Excel and CSV commands, Error Handling, Send Email command, Delay and Wait commands, Object Cloning and Manage Web Controls, Loop Command, If command and Schedule tasks
- Good Knowledge on Running scheduled tasks
- Prepare graphical depictions of use cases activity diagrams, system context diagrams, sequence diagrams, use case diagrams, mockup screens etc.
- Experience in defect management tools like JIRA and ServiceNow
- Experience in SQL Server database
- Proficient in all phases of SDLC includes Design, development, Testing and Production Using Agile and Waterfall methodologies

Atos Syntel - Consultant

Chennai • 01/2022 - 12/2022

- Involved in End-to-End development of Business Process using Robotic Process Automation
- Involved in feasibility analysis
- Involved in creating SDD and PDD
- Responsible for creating development standards

CERTIFICATIONS

Certified with UiPath Advanced RPA Developer.

Certified with UiPath Developer Foundation.

Certified with Automation anywhere Training.

Certified with Automation anywhere Advanced RPA Professional.

Won several recognitions Manager's Choice award with Spot award, got few Clients appreciations for Critical Bug Fixing and Optimizing the code in different projects.

EDUCATION

Thiagarajar College of Engineering
Madurai, India • 05/2016

Bachelors: Mechanical Engineering

- Involved in creating POC's using Automation Anywhere and UI Path for tool comparison
- Implemented selectors for interacting with window and web browsers for continuous navigation of applications
- Used Screen Scraping method to extract text from running window application by appropriate output methods such as native, Full text and OCR
- Responsible for Data Scraping method for extracting structured data from browser applications or documents into a CSV file or Excel Spread sheet
- Responsible for email and image automation
- Handled exceptions using Try-Catch activity
- Responsible for scheduling UiPath Robot using task scheduler in Window
- Responsible for Execution of project in UiPath Robot

Wipro Technologies - Senior RPA Developer
Bengaluru, India • 06/2021 - 01/2022

- Involved in Requirement analysis and feasibility check
- Involved in developing POC using UiPath and .Net (C#)
- Involved in creating PDD and SDD
- Involved in RPA infrastructure test and setup
- Involved in Support
- Involved in exception handling
- Responsible for email
- Excel and citrix automation
- Involved in data scraping using OCR and web automation
- Involved in deployment and UAT testing

Infosys Ltd. - Senior Software Developer
Bengaluru, India • 05/2016 - 06/2021

- Responsible for implementing full life cycle of RPA solutions: Identifying automation opportunities, gathered requirements, implement, test and deploy targeted automation solutions using industry leading RPA
- Implemented robust security measures to protect sensitive data and prevent unauthorized access Delivered demos, technical trainings and support for new/existing clients
- Very good Experience in RPA tool installation and infrastructure test
- Worked on creating PDD and SDD
- Responsible for development in UI Path and unit testing
- Responsible for developing test strategy and test cases for testing of RPA solutions
- Responsible for deployment of the bot
- Exposure to bug fixing in development and production environments
- Mentoring colleagues through RPA Training and guidance on best practice and development techniques
- Training resources in Automation Testing and Robotic Process Automation
