## PROFESSIONAL EXPERIENCE

### SDE - I

Nolan Edutech Private Limited, Bengaluru

November, 2022 - January, 2024

#### Key contributions:

- Contributed to the Resume-Builder Project, a feature-rich web app using Next.js, TypeScript, Node.js, and MongoDB.
- Created user-friendly resume-building interface with diverse template options.
- Leveraged Next.js SSR for performance and Tailwind CSS for responsive design.
- Collaborated on features, refactored code for 100% reusability and enhancing application stability.
- Validated 100% of user input before submitting to the backend.

### Instructional Associate

Nolan Edutech Private Limited, Bengaluru

August, 2022 - November, 2022

#### Key contributions:

- Developed and implemented innovative, technology-driven strategies to craft and align educational content across diverse programs, elevating learning materials and fostering engaging instructional experiences to meet curriculum objectives effectively for a diverse student demographic
- Conducted 700+ interviews to assess students' technical skills, contributing to a comprehensive understanding of their capabilities.

### Intern (Android Developer)

Myskills Hub , Noida

September, 2021 - January, 2022

#### Key contributions:

- Designed and implemented key features for company's app, including home, sign up, sign in, and menu pages in Kotlin using Android Studio.
- Authored content for Kotlin language which was featured on pvskillsbooks.com.

## PROJECTS

### Assortimart

#### • Key Points:

- Engineered an e-commerce platform serving admin and users, utilizing Firebase for secure data management.
- Designed an intuitive interface with light/dark themes, enhancing user experience.
- Implemented robust data tracking capabilities for comprehensive insights.
- Integrated Razor pay for secure transactions, ensuring a seamless payment process.
- Developed independently within a 4-day timeframe as a solo project.

• **Tech Stack:** HTML | CSS | JavaScript | ECMAScript 6 | React | Redux | Redux Toolkit | Firebase

### Uboric Clone

#### • Key Points:

- Led team in Uboric E-commerce site development, focusing on UI, product promotions, dedicated pages, and cart functionality.
- Spearheaded creation of single product pages, cart features, and Best Seller page.
- Utilized GitHub for source code management, resolving 98% of merge conflicts in this collaborative project..
- Ensured secure authentication and protected routes for user safety.

• **Tech Stack:** React | Redux | npm packages | Chakra UI | JavaScript | ECMAScript 6
