## SAP ABAP Consultant / Developer

✉ sachinnpardhi98@gmail.com ☎ 9820360195 📍 Kalyan, India 🌐 LinkedIn

### Professional Summary

---

Experienced SAP ABAP consultant proficient in developing SOAP-based web services for seamless integration between SAP systems and third-party applications. With a strong command of the ABAP programming language and SOAP protocols, I design and implement robust web service solutions tailored to meet client needs. By collaborating closely with cross-functional teams, I ensure efficient data exchange and process automation, enhancing organizational efficiency. Committed to delivering high-quality integration solutions that drive business growth and innovation.

### Project Experience

---

#### Working on SOAP Web Services

Company: FieldMi, Location: Pune

Duration: March 2022 to Present

##### 📋 Project Overview:

I was a key project team member tasked with enhancing the integration capabilities of our organization's SAP system by developing SOAP web services using ABAP (Advanced Business Application Programming). The project aimed to streamline data exchange between our SAP system and external applications, facilitating smoother business processes and improving overall efficiency.

##### 📋 Key Responsibilities:

- Collaborated with functional analysts to understand the integration requirements.
- Analyzed existing SOAP web services and identified areas for improvement and expansion.
- Designed the architecture for new SOAP web services based on business requirements and industry best practices.
- Developed custom ABAP programs to implement SOAP web service interfaces, ensuring data integrity and security.
- Collaborated with QA testers to perform integration testing, ensuring seamless communication between SAP and external systems.
- Conducted knowledge transfer sessions for support teams and end-users, ensuring a smooth handover of the developed solutions.

##### 📋 Achievements:

###### Successful Implementation:

- Delivered multiple SOAP web services on schedule, meeting all project milestones and objectives.
- Enabled seamless integration between SAP and external systems, enhancing data accuracy and reliability.

###### Improved Efficiency:

- Streamlined business processes by automating data exchange between SAP and external applications, reducing manual efforts and errors.
- Enhanced system performance by optimizing SOAP web service implementations, resulting in faster response times and improved user experience.

## Professional Experience

---

### SAP ABAP Developer

03/2022 – present  
Pune, India

### Research Analyst

09/2021 – 02/2022  
Navi Mumbai, India

## Education

---

### B.E. in Mechanical Engineering, Datta Meghe College of Engineering

2018 – 2021

I've secured 69.53% in my B.E.(Mechanical Engineering)

Airoli, India

### Diploma in Mechanical Engineering, Government Polytechnic Thane

2014 – 2018

I've secured 67.35% in my Diploma(Mechanical Engineering)

Thane, India

### S.S.C., Shree Gajanan Vidyalay

2014

I've secured 86.80% in my S.S.C.

Kalyan, India

## SAP-ABAP Skills

---

### SOAP web service implementation

### Third-party integration

#### Data Dictionary

Tables, Views, Structures, Search Helps.

#### Reporting

Classical, Interactive Reports & ALV reports using OOPs.

#### BDC

Session & Call Transaction Methods.

#### Layout Sets

Smartforms

#### Utilities

Runtime Analysis, Debugger.

#### Interfaces

BAPI, RFC

#### Enhancement

customer exit, BAdI

#### OOPs

Inheritance, Encapsulation, Polymorphism

### Module pool Programming

### ALE, IDOC, EDI

## Languages

---

• English

• Marathi

• Hindi

## Interests

---

• I like to play Cricket

• Trekking
