

BANDARI SAGAR

bandarisagar95@gmail.com/+91-8555980152

PROFESSIONAL SUMMARY

- Having around 3+ years' experience in automation using UIPATH (RPA) and C# language with overall experience of 4 years.
- Quick learner, self-starter and enthusiastic in learning new technologies and concepts.
- Good at understanding the process and designing bots which best suites the process to be automated.
- Designed various bots driving continuous improvement to processes, work flow and reporting in organizations

RPA Skills

UiPath Studio	RE-Framework	Excel Automation	Sap Automation
UiPath Orchestrator	Web Automation	Email Automation	PDF Automation
API Automation	OCR Automation	VBA	

EXPERIENCE

RPA Developer: Accenture (eTeam Info services PVT LTD) **FEB 2023 - JAN 2024**

RPA Developer: Nakul Agri Sciences PVT LTD **DEC 2019 - JAN 2023**

EDUCATION

B. tech (ECE),
Graduation Year (2016),
Sree Chaithanya Institute of Technological Sciences, Karimnagar, Telangana.

PROJECTS

Project 1: Close Task Automation (UIPATH Studio by using Vb.net, APIs.)

Role: UiPath Developer

In this project, I have automated two applications Domino and Cadency, this automation was done by using Dispatcher and Performer method, by using the dispatcher we will extract the data from Domino application by using API GET method and we will add it into Queue. By using performer, we will login into Cadency application and search that task Id which are mentioned in Queue, and will take necessary actions as per queue after successful completion in Cadency, task will be updated in Domino as Closed Task.

Project 2: Dispute Report Creation (UIPATH Studio by using Vb.net, VBA, SAP)

Role: UiPath Developer

In this project, by using UiPath we will download the Dispute report and UDM report from the SAP, by comparing both the reports we will get the responsible teams for the disputes, and with the data available in these two reports we will create a pivot table using VBA and will share that table to concern team through mail.

ROLES AND RESPONSIBILITIES

- Understanding manual processes and designing bots to automate repetitive processes.
- Created flowchart and sequences according to UiPath best practices to create bots.
- Used large number of activities in different workflows to suffice automation requirements.
- Identifying exceptions and its solution by testing each activity. Used debugging features present in UiPath Studio.

PERSONAL SKILLS

- Good communication skills to present points precisely and clearly.
- Good problem-solving ability and analytical skills to solve the problem efficiently.
- Ability to work in a team.
- Leadership Qualities.

PERSONAL DETAILS
