Core Competencies

- RPA Tool: UiPath
- Document Understanding
- Power Automate, Report Builder, Data Flows
- Data Analysis
- AI Builder
- Share Point
- Data Extraction

Academic Details

B. TECH (Computer

Science and Engineering):

Priyadarshini College of
Engineering

Date of Birth

14th May 1999

Languages Known

English & Telugu & Tamil

Customer Industries

Retail

Hospitality

Human Resource

Payroll

Professional Summary (2+ Years of Experience)

Enthusiastic Highly detail-oriented individual skilled at creating software bots that can automate our daily mundane processes and much more. Strong consulting professional skilled in Power UiPath, Power Automate, and Automation Anywhere. Worked on verticals like Retail, Hospitality, Apparel, and Human Resources.

Work History

Business Intelligence Developer

- Having 2.5+ years of experience as an RPA professional and developed dashboards in UiPath.
- Implemented End to End Robotic Process Automation (RPA) using UiPath.
- Developed the objects and workflows as per client requirements.
- Performed tool evaluation and feasibility to help in selecting suitable Automation.
- Hands-on experience in supporting retail modules in LS Retail.
- Resolve tickets raised by End users on Retail POS, Instore, and financial modules.
- Document Understanding – UiPath Studio and Robot extract and interpret information.
- Created Report Documents like Report Specifications and Unit Test Planning
- Implemented End to End Robotic Process Automation (RPA) using UiPath.
- Developed the objects and workflows as per client requirements.
- Performed tool evaluation and feasibility to help in selecting suitable Automation.

PROFESSIONAL EXPERIENCE

- Worked in VISSANTECH SDN BHD from Dec 2022 to Sep 2023.
- Worked in ennVee Solutions from May 2021 to Sep 2022.

PROJECT 1:

Client Name: Gamuda Australia.

Project Name: Invoice PDF Data Extraction (Printed and Scanned)

Role: UiPath Developer.

Technology: UiPath Document Understanding.

Duration: Dec 2022 – Feb 2023

Team Size: 1

Customer Regions

India, US, and Malaysia

Technologies

UiPath, Power Automate, and

Automation Anywhere.

Certifications

RPA Developer Foundation
RPA Developer Advanced
(v2020.10)
Power Automate for Desktop
Power Automate AI Builder

DESCRIPTION:

By using Document Understanding in UiPath the printed and scanned pdfs data to be extracted. The data like INVOICE NUMBER, INVOICE NAME, DOCKET NUMBER, etc., The Data from clients needed and extracting that data in Document Understanding and placed in an Excel. Here in Document Understanding, we use OCR engines. By OCR engines the data will be extracted in an Excel sheet.

Responsibilities:

- Interaction with Business Analysts, Project Managers, and SMEs for requirements understanding.
- Gathering detailed requirements from the Client for business requirements.
- Updating the design document about the automation process.
- Configuring UiPath development environment. (Such as software installation, installation of related technologies, packages, extensions, etc...).
- Expertise in developing business processes with Sequences and flowcharts. Exposure to designing a business process With State Machine.
- Designed automation solutions using the UiPath RPA platform.
- Publishing the Robots into Orchestrator.
- Designed solutions utilizing RPA best practices and maintained technical responsibility for project delivery.

PROJECT 2:

Client Name: Honda Trading Project, Malaysia.

Project Name: Payment Settlement (Create payment voucher in SAP Gates)

Role: UiPath Developer.

Technology: UiPath.

Duration: Mar 2023 – Sep 2023.

Team Size: 2

DESCRIPTION:

Honda Trading Project is an Accounting Department. Here we create payment vouchers in SAP gates. In this payment, the process Schedule will be Weekly or Monthly. The inputs come from Excel and SAP gates. The process flow will be User to Extract AP (Availability payment) from SAP gates, User to Calculate the amount to each Vendor. Make payment in SAP gates. Generating Payment Voucher from SAP gates and finally saving payment into Share Folder.

Responsibilities:

- Interaction with Business Analysts, Project Managers, and SMEs for requirements understanding.
- Gathering detailed requirements from the Client for business requirements.
- Updating the design document about the automation process.
- Configuring UiPath development environment. (Such as software installation, installation of related technologies, packages, extensions, etc...).
- Expertise in developing business processes with Sequences and flowcharts. Exposure to designing a business process With State Machine.
- Designed automation solutions using the UiPath RPA platform.
- Publishing the Robots into Orchestrator.
- Designed solutions utilizing RPA best practices and maintained technical responsibility for project delivery.

PROJECT 3:

Client Name: ennVee Solutions Private Limited.

Project Name: Data Insertion by Automation.

Role: UiPath Developer

Technology: UiPath (Version 2022.6.0)

Team Size: 2

DESCRIPTION:

By Logging into Oracle Database, the data like INVOICE NO. INVOICE AMOUNT AND CUSTOMER NAME should be filled by using UiPath Automation and Power Automate. The data will be provided from the customer side through an Excel sheet. From that Excel, the data will be automated in that Oracle database. These all processes will be done in the UiPath Implementation.

Responsibilities:

- Interaction with Business Analysts, Project Managers, and SMEs for requirements understanding.
- Gathering detailed requirements from the Client for business requirements.
- Updating the design document about the automation process.
- Configuring UiPath development environment. (Such as software installation, installation of related technologies, packages, extensions, etc...).
- Expertise in developing business processes with Sequences and flowcharts. Exposure to designing a business process With State Machine.
- Designed automation solutions using the UiPath RPA platform.
- Publishing the Robots into Orchestrator.
- Designed solutions utilizing RPA best practices and maintained technical responsibility for project delivery.

PROJECT 4:

Client Name: Kaladi Consulting Services Private Limited

Project Name: Covid Report (Analysis Information and Report of Covid Report)

Role: RPA Developer

Technology: UiPath (Version 2022.6.0)
