- |               |                 |               |           |
|---------------|-----------------|---------------|-----------|
| • Java        | • Hibernate     | • Postman     | • Android |
| • Spring Boot | • Liferay       | • GitHub      | • CI/CD   |
| • MVC         | • Maven         | • RESTful API |           |
| • Docker      | • Gradle        | • JavaScript  |           |
| • S3, EC2     | • Microservices | • HTML, CSS   |           |
| • EC2         | • OSGI          | • MS SQL      |           |

## WORK EXPERIENCE

### HAYS Business Solutions Pvt Ltd.

Noida

#### Associate Software Engineer

2021 - 2023

- Developed and implemented robust and scalable Liferay website/portal, adhering to industry best practices and coding standards by 70 %.
- Utilized frameworks and technologies such as Spring, OSGI, Hibernate, APIs, FTL, JavaScript, jQuery, JSP, Microservices, AWS, ES to build efficient and reliable Portal and software solutions, resulting in a 30% increase in portal performance.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring high-quality code and optimal performance.
- Worked closely with clients to understand their needs and deliver custom software solutions that met their requirements.
- Used predefined portlets by overriding and customizing it.
- Maintained and improved customer satisfaction by resolving 75% of portal issues within 24 hours, resulting in a decrease in customer complaints of 50%.
- Developed and implemented efficient coding practices resulting in a 20% reduction in application errors.
- Collaborated with cross-functional teams to develop and deliver customized software solutions for UK and German clients, resulting in a 20% increase in customer satisfaction ratings.

### Instant Fintech Private Limited

Delhi

#### Android Developer Intern

2020 - 2021

- Developed and maintained software applications using Java, C++, and Python, resulting in improved functionality and user experience.
- Collaborated with cross-functional teams to test and debug software code, ensuring high quality and efficient performance.
- Implemented new features and enhancements based on user feedback, driving increased customer satisfaction and engagement.
- Assisted in the design and implementation of software architecture, contributing to the overall success of multiple projects.

## EDUCATION

---

**Symbioses International University**  
Master of Science (Computer Applications)

**Pune, Maharashtra**  
**2024-2026**

**PUSA Institute of Technology**  
B Voc (Power Distribution of Management)

**Delhi**  
**2016-2019**

## CERTIFICATION

---

### Java Certification (6 month)

Successfully completed an intensive 6-month Java Certification Program at CEPTA, specializing in core and advanced Java programming, application development, and best practices. Acquired in-depth knowledge of Java frameworks, including Spring and Hibernate, and demonstrated proficiency in designing and implementing scalable solutions. The program covered key areas such as database integration, web services, and security, enhancing my expertise in full-stack Java development.

## PERSONAL PROJECTS

---

### Loan Shala (May 2020): "Loan Shala - Simplifying Loans, Amplifying Lives."

- Shala Android App revolutionizes lending with a user-friendly interface, real-time notifications, and seamless e-signatures. Redefining accessibility and transparency in financial services.

### Hospital Management System (Nov 2019): "Streamlining Healthcare"

- Engineered a Java application for hospital management, incorporating functionalities like patient records, appointment scheduling, and billing.
