WORK EXPERIENCE

SAP S/4 HANA ABAP Developer, Tata Consultancy Services

Sep 2020 - Present

4.3 Years

Gained extensive experience in implementation, rollout, and support projects, focusing on WRICEF objects, FIORI, and OO-ABAP.

Delivered end-to-end solutions leveraging SAP S/4 HANA capabilities to meet business requirements efficiently.

PROJECT

Hollister (Implementation Project)

Dec 2020 - Jul 2022

Worked extensively in core ABAP areas, including DDIC, ALV reports, function modules, enhancements (user exits and customer exits), and interfaces (RFC function modules and web services).

Developed Adobe Forms and IDOCs to meet project requirements.

Contributed to Fiori application front-end configurations, standard and custom GUI transactions, and UI5 applications.

ARM (Support Project)

Aug 2022 - May 2023

Addressed bug fixes across various areas, including DDIC objects, reports, BADIs, customer exits, user exits, CDS views, ODATA, Adobe Forms, IDOCs, and classes.

Investigated root causes of issues in both standard and custom objects using advanced debugging techniques.

Utilized the ServiceNow tool for managing tickets, including incidents, service catalogs, change requests, and problem tickets.

NEC (Rollout Project)

June 2023 - Sep 2024

Delivered solutions across DDIC, ALV reports, RFC function modules, enhancements, and forms (Adobe Forms and Adobe fragmented forms).

Worked extensively on IDOCs, ODATA, CDS views, and class-based developments.

SAP SE

Oct 2024 - Present

Focused on developing reports, RFC function modules, IDOCs, and enhancements in the material master area.
