Santosh Atwadkar

RPA DEVELOPER
-LKI IT Services Pt. Ltd.

Address: Pune

Phone: +91 8087970322

Email: santoshatwadkar0322@gmail.com

Objective:

Looking for a suitable job role in RPA Development to utilize 2+ years of experience in technology engineering, software design, client support and servicing and server maintenance.

TECHNICAL SUMMERY:

- Over **2 years of experience** as **RPA Developer.** (UiPath)
- Exhaustive experience in Automating Banking **Domain** and **Insurance Domain Applications**.
- Well acquainted with **RPA** Life Cycle, **SDLC** (Software Development Life Cycle) and **STLC** (Software Testing Life Cycle).
- Skilled in designing **BOTS** by using Re-framework, Sequence, Flowchart and State Machine.
- Good hands on experience in different types of Robotic Process Automation such as **Web, Email, Excel**, tools-based, Skype server, Mainframe and **Windows Applications** using Uipath.
- Comprehensive experience in Preparing UiPath Development artifacts such as **PDD, SDD.**
- Experience on **PDF** automation, **Excel** Manipulation, Google Form Filling, **Screen Scrapping** and **Data Scrapping** from Web etc.
- Implemented the end-to-end execution for different processes using **Attended and Unattended** Bots. **Monitoring and scheduling of Bots** and **Queues** using UiPath **Orchestrator**.
- Have Worked on Queue Configurations, Monitoring, **Queue Actions**, **Exception handling (Try-catch, Throw, ReThrow, global exception handler etc.)**.
- Used Screen Scraping methods such as **Full text**, **Native** and **OCR** engines like (**MS OCR engines/Google OCR**) extracting bigger blocks of text, text position on screen, color for and other granular information of text.
- Having good understanding of **Multi-Bot Architecture.**Good **Troubleshooting** and **Debugging Skill**.
- Detailed knowledge in using **UiPath Studio, Orchestrator and UiPath Assistant.**
- Capable in automating PDF Documents.
- Followed best practices (ex. Exception handling, used Queues whenever required to reduce time, log messages, Naming conventions for better productivity and readability).
- Strong proficiency in different methodologies like **agile**, **waterfall model** etc.
- Practical Experience in Rally and Jira tools.
- Certified UiPath Foundation Developer.
- Team Worker with good interpersonal, communication and learning skills.
- Enjoy new challenges and always willing to take extra responsibilities to get work done.
- Quick learner and excellent team player, ability to meet tight deadlines and work under pressure.

TECHNICAL SKILLS:

- RPA Tools   : UiPath
- Technical skills   : HTML, UiPath RPA
- Data Base   : SQL Server Management Studio 2018
- Web Technologies   : HTML
- Operating systems   : Windows 7/10
- Defect/Bug Tracking Tools : Rally, Jira

PROJECTS:

Project 1
Project Name: IMS (Insurance Management System)
Domain: Insurance Domain
Client: Hartford Financial, United States
Developer Tool: Robotic Process Automation (RPA) UiPath
Role : RPA Developer

RESPONSIBILITIES:
- Our task is to ensure that the environment developed by us shouldn't cause any deviation. Each and every task or process developed, needs to be tested under all circumstances before its being deployed for live functioning.
- A daily/weekly performance reports needs to be sent out to the team and management and indicate the difference and deviations occurred during the course of action.
- Building Solution Design Document (SDD) and Business Require Document (BRD).
- Development Business Process with UiPath Tool.
- Perform Unit Testing on each process developed on a regular basis before deploying to UAT.

Project 2
Name: Healing Equilibrium
Client: Perkin Elmer, United States
Domain: HealthCare
Role: RPA Developer
Technology: RPA
Tools: UiPath, Excel, Outlook,

ROLES AND RESPONSIBILITIES:
- Developed Business process flow as per the requirement.
- Developed four Bot's to process the cases of volume weekly 100-200 cases.
- Automated Web application using UiPath.
- Using queues concept developed the Process in such a way that Process can process multiple applications parallelly using multiple queues.
- Creating PDD (Process design document) and SDD (Solution design document) required for automation process.
- Developed the RPA bots using UiPath from scratch in end-to-end process
- Have regular interactions with onsite test analyst and resolve queries & clarifications in a timely manner.
- Worked with Production support during UAT and Production Installs.

ACADEMICS:

Bachelor's of Engineering
Shivaji University
2013 - 2017

Personal Details:

- **Address**   **: Pune**
- **Gender**   **: Male**
- **Languages**   **: English, Hindi, Marathi**
- **Nationality**   **: Indian**
