Career Scan			
Organization	**Duration**	**Technology Exposure**	**Role**
HCL	Aug-2021 to Aug-2022	UiPath, RPA, C#, Orchestrator	Software Developer
CAI (https://www.cai.io/)	Aug-2022 to Present	UiPath, RPA, Orchestrator, Studio, Database,Azure Devops, LINQ, Python, Action Center, UiPath Apps	RPA Developer

Assignment Overview

Title	TDS-Remittance
Client	**ICICI BANK**
Tools	**UiPath, Studio, Orchestrator**
Description	Implemented end-to-end automation of the ICore Application, meticulously capturing failure reasons and validation errors during data download or upload processes. Effectively managed various pop-up messages and application glitches, while adhering to stringent security protocols due to the sensitivity of bank data. Overcame challenges posed by limited resources for both development and testing phases.
Team/Individual Process	Individual

Title	ALKO Exit Interview
Client	**DexKo**
Tools	**UiPath, Studio, Orchestrator, Database**
Description	This process entails terminating an employee's tenure within the company, updating their information across multiple applications via APIs, and managing employee records in the database through updates, deletions, and insertions.
Team/Individual Process	Individual

Title	HR Offboarding
Client	**DexKo**
Tools	**UiPath, Studio, Orchestrator, API**
Description	The holistic automation of diverse bot processes encompasses a suite of five distinct entities, comprising a dispatcher orchestrating operations alongside four performers executing tasks. Leveraging API endpoints streamlines seamless data retrieval and submission across disparate applications, synergistically complemented by the integration of intuitive UI elements to enhance interaction with the front-end interface.
Team/Individual Process	Individual
