WORK EXPERIENCE

Corporateserve Solution Pvt. Ltd. (Nov 2021 – Present)

- This experience marks my start of journey in consulting. I get my first implementation project experience here as the SAP ABAP Consultant.
- Part of 3 end-to-end Implementations (SAGE, UK- PAINTS, Bhole Baba Milk food Industries) Worked on SAP R/3, ABAP Dictionary, ALV Reports, Smart forms, BDC, BAPI, Interfaces, & Enhancements, Dialog Programming.
- Having a good understanding of various Debugging techniques: Watch points and Break Points/ Experience to debugging SAP Std.
- Extensively worked on WRICEF components in SD, FI, MM, PP, and HR Modules in offshore & Client-facing models.

mpower DATA SERVICES (March 2021 – Nov 2021)

Being the only SAP Consultant here gave me a chance to face problems related to ABAP as well as Functional.
- Extensively work on ALV Reports, BDC, Smart forms, ODATA, and Creating the Design in the Front end (SAP web IDE Tool).
- Created Material master App for Hamdard limited.
- Specialization in SAP ABAP as a Technical Developer in all RICEF components for implementation and support projects.
- Experience in the creation of Custom Tables and Table Maintenance generators.
- worked on Purchase Registers, Sale Registers, and Asset Upload BDC. Developed a program to Send Email Notifications for the AM & RM Roles for different levels for the Invoice Generations.

HCL TECHNOLOGIES-(NOIDA). (Jan 2020 – April 2021)

- Got my first exposure to SAP working here and get to learn the basics of SAP ABAP.
- I am appointed as a software analyst in HCL and used to work on various distinct cases and use to handle the Technic quality of switches, routers, IP addresses, and DNS.
- Work on Root Cause Analysis. Identify where the bug is coming. Fix the bug in the given time frame while considering various SLA meters.
- Worked on data dictionary objects, ALV Reports, Function Modules, and Module Pool Programming.

PROJECTS
