EXPERIENCE

Sr. Professional – SAP AppDev | Ingram Micro India SSC Pvt Ltd   📍 Mumbai, India
4th May 2020 – Present

Project	PO ETA Update
Description	When non-sap system , sends request of PO confirmation update, the processing takes more than 1 minute thereby resulting in time out at non-sap end. Wanted quick response
Solution	· Created a process to bypass sales order line schedule line update which takes place during po update process by doing implicit enhancement . · Collected the sales orders in the temp database table and processed them together as a separate job after non sap execution is complete. Non SAP jobs running for 20+ hrs got reduced to 1-2 hrs.

Project	MEA ROLLOUT
	Implementing SAP for MEA specific countries
Highlights	· Creating Adobe forms for proforma, sales invoice, developing reports .
	· Modifying legal regulation check logic using BADIs in GTS .

Project	SAP AMS
	Debugging ABAP issues, providing analysis suggesting solution and implementing it for tickets assigned via Service Now.
Highlights	· Correcting GL account determination in an AMDP method of custom report displaying un-invoiced line items in BRIM system.
	· Resolving interface related issues using SOA manager.
	· Debugging pricing routine related errors. Output type bugs in update debugging.
	· Restructured ticket assignment method to eradicate uneven workload distribution.

Other Projects and work summary

- · Developed OData service to download invoice PDF in BRIM System
- · Managing and maintaining GTS SPL screening

Associate Consultant – SAP ABAP | Saint Gobain India Pvt Ltd   ♀ Mumbai, India
10th June 2019 – 28th April 2020
